Products and Services

We have made every effort to describe and display our products and services as accurately as possible. All photographs of our products are provided as a guide and whilst we take care to provide accurate colour representations, visual display can vary significantly between devices and, as such, we cannot guarantee that your device's display of any colour will be accurate.

We may update product information, including prices, at any time.

Yarn care instructions

We strongly recommend gentle hand washing for all our yarns.

We take great care to use the correct amount of dye when dyeing our yarns and fibre and all our items are thoroughly rinsed after dyeing.

You may experience a slight colouration of water when rinsing – the water should run clear quite quickly. Some colours, particularly blues, are more prone to 'bleeding'. Please note that the often given advice to rinse with vinegar solution is no better than using plain water. The dyes which we use will only 'fix' when heat (above 85C) is applied.

If you have any issues with your yarn, please contact us and we will work with you to resolve them.
